YACCOLINE

DEBLOCKINJECT

Deblock oil for seized injectors

USES

DEBLOCKINJECT dissolves rust, dirt and scale build-up on injectors, jets and spark plugs.

Allows easy extraction of injectors or other parts, and prevents damage.

Suitable for a wide range of applications: automobile, light commercial vehicles, heavy duty equipment (transportation, construction, agriculture), marine...

PROPERTIES & ADVANTAGES

- Heavy duty foam sticks and penetrates deeply in clogged parts.
- Allows easy disassembly of parts and thus save time
- Cleans the surface by removing rust, carbon residue, soot deposits and seals materials

DIRECTIONS

- Shake the can until the shaker inside the can runs noise-free. Spray parts to be treated from a distance of 20 cm. Let act for a few minutes. Clean with compressed air or use a cloth. Turn the parts loose. If necessary, repeat treatment.

CAUTION FOR USE

Before use, read carefully the safety information on the label of the product, and check the instructions given on the Health and Safety Data Sheet available at yacco.com
Work in a well ventilated area. Use protective eyewear and rubber gloves.

Drain the aerosol head down after use

Do not spray close to plugged electrical appliances. Use only when the device is unplugged. Wait 5 minutes before plugging it back.
